Forecast for Monday 01 Aug 2022

Weather: Deceptively dry until mid-afternoon with a mixture of cloud and bright spells. Thickening cloud and occasionally heavy rain from mid-afternoon, persisting through the evening.

Chance of cloud-free hill tops above 700m: 70% falling 30% in the afternoon and 10% in the evening.

Low cloud and visibility: Good visibility with cloud mainly above the summits until late in the day, however some patchy cloud down to 600 m may affect some hills for a short time around mid-morning. More extensive low cloud with bases down 400 or 500 m will start to extend east from mid-afternoon, then lowering further through the evening. Visibility accompanying evening rain and low cloud will be moderate or poor, and very poor within cloud.
